***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Sankey et al (US 6,065,594). Sankey et al disclose a storage container comprising a bottom wall 50 defining an opening. A retaining device 300 connected to the bottom wall. The retaining device including a bridge 354 having first and second end. The first and second ends are part of the bottom walls where bridge 354 extends upwardly therefrom. The first and second end of the bridge disposed on opposite sides of the opening. The first and second ends are disposed on the ends of inclined walls 356 and are parallel with the bottom wall. The inclined walls are connected to an upper wall. A push button is disposed on the bridge and spaced from the arm 364. The fixed support occupies the area not adjacent the first and second ends.

Applicant's argument has been considered. However, contrary to applicant's assertion, element 354 does extend across the opening. Element 354 includes not just the portion adjacent to the arm 364 and the opposite portion thereof, but the entire circumferential platform. Even if slots 372 separate part of the element 354, the instant invention has slots 80,82,102,112 that serves the same function. Accordingly, independent claim 1 does not distinguish over the prior art of record.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Sankey et al in view of Official Notice. It would have been obvious to make the thickness of the ends walls less than the bottom wall to facilitate bending of the arms and for economic reason.

***Allowable Subject Matter***

5. Claims 4-15 and 28-33 are allowed

***Conclusion***

6. Telephone inquiries regarding the status of applications or other general questions, by persons entitled to the information, should be directed to the group clerical personnel and not to the examiners. In as much as the official records and applications are located in the clerical section of the examining groups, the clerical personnel can readily provide status information without contacting the examiners, M.P.E.P. 203.08. The **Group clerical receptionist number is (703) 308-1148 or the Tech Center 3700 Customer Service Center number is (703) 306-5648.**

If in receiving this Office Action it is apparent to applicant that certain documents are missing, e.g., copies of references cited, form PTO-1449, form PTO-892, etc., requests for copies of such papers should be directed to Donna Monroe at (703) 308-2209.

Art Unit: 3728

For applicant's convenience, the Group Technological Center FAX number is (703) 872-9302 and for After Final Amendment the number is (703) 872-9303. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify Examiner Luong of Art Unit 3728 at the top of your cover sheet of any correspondence submitted.
